

PACKAGES

Complete Trade Show Kit

A coordinated indoor booth with one fabric backdrop, two retractable banners, one table cover, and one folding A frame with two printed faces.

WHAT YOU RECEIVE

- One selected tension fabric backdrop
- Two premium retractable banners
- One selected table cover and one double sided folding A frame

Selected options define your item. Scene props and other display products are separate.

Choose with confidence.

Choose backdrop size and curve, table cover construction, and A frame shape. The two banner stands remain part of the kit; the folding table is separate.

BACKDROP

8 x 8 ft curved / 8 x 10 ft curved / 8 x 10 ft straight

COMPLETE TRADE SHOW KIT

Ready for event day.

A practical overview. Use the instructions supplied with your exact product for locks, fittings, mounting, and any model specific procedure.

01 Plan the complete footprint

Allow for the backdrop, table, A frame, support feet, storage, and the customer conversation area.

02 Match the configuration

Confirm backdrop width and shape, table cover construction, and A frame shape before unpacking components.

03 Build each item separately

Use the supplied instructions for the backdrop and A frame. Do not mix supports or graphic patterns between products.

04 Dress your table

Fit the selected cover to a compatible table you provide. Check stretch pockets or hanging sides against the actual table.

05 Check the visitor view

Review the backdrop, table, and both faces of the connected A frame from the approach path. Keep entrances and exits clear.

06 Pack by component

Remove graphics as instructed and store each display dry in suitable protection. Keep a record of each part for future reorders.

COMPLETE TRADE SHOW KIT

Get the details right.

Base kit	8 x 8 ft curved backdrop
Portable banners	Two 31.5 x 78.7 in retractables
Table cover	One 6 ft fitted cover
A frame	One folding unit with two printed faces

Artwork that fits

Create separate files or surfaces for the backdrop, table cover, and both A frame faces. A coordinated design still requires a matching template for each component.

Confirm for your exact item

Exact backdrop model, table dimensions, A frame shape and connection, package contents, and the separate supplier templates.

Use the matched supplier template before preparing production files. A visual placement preview or layout reference does not establish final bleed, trim, seams, or safe areas.
