CUSTOM CAR FLAG

Ready for event day.

A practical overview. Use the instructions supplied with your exact product for locks, fittings, mounting, and any model specific procedure.

01 Confirm the display use

Check whether the selected flag includes the relevant pole or attachment. A printed flag alone is not a mounting system.

02 Check the mount

Confirm compatibility with the intended vehicle and exact window or support arrangement.

03 Inspect before fitting

Do not use a cracked pole, damaged clip, or torn flag sleeve.

04 Protect visibility and access

Keep the display clear of the driver's view, mirrors, doors, and any safety equipment.

05 Confirm movement restrictions

Do not assume that a promotional flag or mount is rated for road use. Follow the supplied model's restrictions.

06 Remove and store

Detach the flag when the display is not required. Dry the fabric and protect the clip and pole during storage.

CUSTOM CAR FLAG

Get the details right.

Flag size	Approximately 12 x 18 in
Mount	Vehicle window clip
Use	Event and parade vehicles

Artwork that fits

Keep the flag's reading direction and pole edge clear in the artwork. Confirm the finished outline and attachment zone.

Confirm for your exact item

Exact vehicle mount, fit, permitted use, movement restrictions, and the corresponding flag template.

Use the matched supplier template before preparing production files. A visual placement preview or layout reference does not establish final bleed, trim, seams, or safe areas.
