

STICKERS

Custom Die Cut Stickers

Individual stickers cut around your artwork, with selectable finished sizes, quantities, vinyl materials, and surface finishes.

**WHAT YOU RECEIVE**

- Selected quantity of individually cut stickers
- Chosen size, material, and finish
- Production proof showing the cut line

Selected options define your item. Scene props and other display products are separate.

Choose with confidence.

Choose the overall finished size and the look of the material. A transparent artwork file makes a custom outline easier to preview; the production proof confirms the cut.

FINISHED SIZE

2 x 2 in / 3 x 3 in / 4 x 4 in / Custom size

CUSTOM DIE CUT STICKERS

Ready for event day.

A practical overview. Use the instructions supplied with your exact product for locks, fittings, mounting, and any model specific procedure.

01 Review the cut line

Check the final contour, border, size, and small details on the production proof before printing.

02 Test the intended surface

Check a small sample on the intended material. Adhesion and removal can vary with the substrate and conditions.

03 Prepare the surface

Remove dirt, grease, and moisture using a method suitable for the surface. Allow it to dry completely.

04 Align before applying

Position the sticker before pressing it down. Keep fingers away from the adhesive where practical.

05 Apply evenly

Press from the center toward the edges to reduce trapped air. Do not assume every surface permits repositioning.

06 Store remaining stickers

Keep unused stickers on their liners, flat, clean, and away from excessive heat or moisture.

CUSTOM DIE CUT STICKERS

Get the details right.

Popular sizes	2 x 2 in, 3 x 3 in, and 4 x 4 in
Minimum quantity	50 stickers
Cut	Individual contour cut
Artwork	Vector PDF, AI, EPS, or SVG preferred
Proofing	Cut line and placement approved before production

Artwork that fits

A transparent PNG or vector file helps show the intended contour. The requested size is the bounding area, not a requirement to stretch the logo into a square.

Confirm for your exact item

Exact cut contour, border, print finish, substrate compatibility, and any durability requirement for the intended use.

Use the matched supplier template before preparing production files. A visual placement preview or layout reference does not establish final bleed, trim, seams, or safe areas.
