

FLAGS

Custom Fan Scarf

A printed spandex supporter scarf for clubs, teams, and event giveaways, with hemmed or fringed ends and artwork on both faces.

**WHAT YOU RECEIVE**

- Selected quantity of printed scarves
- Artwork on both faces
- Selected hemmed or fringed finish

Selected options define your item. Scene props and other display products are separate.

Choose with confidence.

Choose the quantity and end treatment. Use a short message that can be read when the scarf is held overhead, then confirm the finished dimensions with the proof.

QUANTITY

25 scarves / 50 scarves / 100 scarves

CUSTOM FAN SCARF

Ready for event day.

A practical overview. Use the instructions supplied with your exact product for locks, fittings, mounting, and any model specific procedure.

01 Check the finished format

Confirm scarf width, length, and the selected hemmed or fringed finish before approving the proof.

02 Review both ends

Make sure logos and messages read in the intended direction when the scarf is held across its length.

03 Handle the fabric gently

Avoid snagging the print or pulling directly on fringe or narrow edge stitching.

04 Use as a display accessory

The scarf is a promotional textile. Do not use it as a restraint, tie down, or protective equipment.

05 Follow supplied care guidance

Use the cleaning method recommended for the actual printed fabric and finish.

06 Keep dry in storage

Store clean, dry scarves away from rough fasteners or hardware that could catch the textile.

CUSTOM FAN SCARF

Get the details right.

Selected format	55 x 7 in; confirm final finished dimensions with the proof
Material	Spandex
Minimum	25 pieces

Artwork that fits

Compose the long message for a wide, shallow format. Confirm the orientation and any rear printing, end details, and fringe zones.

Confirm for your exact item

Final scarf dimensions, fabric specification, print sides, hem or fringe allowance, and care instructions.

Use the matched supplier template before preparing production files. A visual placement preview or layout reference does not establish final bleed, trim, seams, or safe areas.
