

FLAGS

Custom Felt Flag

A felt pennant with a triangular profile for team merchandise, school displays, and indoor brand collections, available in standard or custom sizing.

**WHAT YOU RECEIVE**

- Selected quantity of custom felt pennants
- Selected finished size
- Approved printed artwork and cut silhouette

Selected options define your item. Scene props and other display products are separate.

Choose with confidence.

Choose the pennant dimensions and quantity. Keep lettering within the taper and request any special display sleeve or custom shape before production.

SIZE

9 x 24 in / 12 x 30 in / Custom

CUSTOM FELT FLAG

Ready for event day.

A practical overview. Use the instructions supplied with your exact product for locks, fittings, mounting, and any model specific procedure.

01 Check the pennant format

Confirm the selected length, height, and triangular outline. The printable flag is not a rectangle.

02 Review the narrow point

Keep small text and important marks away from the tip where the available space becomes limited.

03 Choose a suitable display

Use a compatible hanging or mounting method for the supplied finish and intended indoor setting.

04 Protect the material

Avoid stretching the point, puncturing artwork, or using fasteners that tear the finished edge.

05 Keep it clean

Follow the care guidance for the supplied felt and printing method. Avoid unverified heat or washing treatments.

06 Store flat or gently rolled

Keep the pennant dry and protect its point and edge stitching from creasing or snagging.

CUSTOM FELT FLAG

Get the details right.

Material	Felt
Popular size	9 x 24 in
Minimum	10 pieces

Artwork that fits

Design within the actual triangular felt outline. The attached edge, point, and finished border must be checked on the supplier proof.

Confirm for your exact item

Exact triangular cut shape, felt specification, hanging finish, edge treatment, and final artwork template.

Use the matched supplier template before preparing production files. A visual placement preview or layout reference does not establish final bleed, trim, seams, or safe areas.
