

CANOPIES

Custom Pop Up Canopy

Build a custom event tent around your space: a printed canopy top and frame, with walls, a table cover, and flags added only when you choose them.

**WHAT YOU RECEIVE**

- Custom printed canopy top
- Selected frame
- Standard protective carry bag, ropes, and stakes

Selected options define your item. Scene props and other display products are separate.

Choose with confidence.

Start with the event footprint. Add a full back wall for a large brand surface, half walls for an open booth, or full side walls for more enclosure. Table covers, flags, and a roller bag are optional.

SIZE

10 x 10 ft / 10 x 15 ft / 10 x 20 ft

CUSTOM POP UP CANOPY

Ready for event day.

A practical overview. Use the instructions supplied with your exact product for locks, fittings, mounting, and any model specific procedure.

01 Plan the space

Check the selected footprint, clear height, exit routes, ground condition, and venue anchoring rules before unpacking.

02 Inspect the frame

Check legs, hinges, sliders, fabric, and fasteners. Stop if a component is bent, loose, torn, or does not engage correctly.

03 Build as a team

Open the frame evenly with another adult. Keep fingers away from moving joints and use the instructions supplied with the exact frame.

04 Secure the display

Use compatible anchoring at every leg. Keep ropes, weights, and stakes out of customer paths. Check the setup again after adding walls.

05 Watch the conditions

Do not treat a canopy as a storm shelter. Clear the area and take it down before unsafe weather arrives. No tested wind rating is stated in this guide.

06 Pack completely dry

Remove accessories, support the frame while releasing its locks, and close evenly. Dry and inspect fabric before storing it in a protective bag.

CUSTOM POP UP CANOPY

Get the details right.

Starting footprint	Nominal 10 x 10 ft; catalog frame footprint 3 x 3 m
Aluminum frame	40 mm hex profile (about 1.57 in)
Steel frame	Confirm the exact profile and model before ordering
Fabric	600D Oxford
Printing	Full color CMYK
Printable faces	4 peaks, 4 valances, and optional wall interiors or exteriors

Size reference

The following page separates nominal size names from the catalog's measured dimensions.

Artwork that fits

Plan roof peaks, valances, back wall, and each side wall separately. Double sided walls need a readable design for each face. Match left and right surfaces to the approved assembled view.

Confirm for your exact item

Exact frame model, lock operation, anchoring system, final wall dimensions, sewing allowances, and any venue required certification.

Use the matched supplier template before preparing production files. A visual placement preview or layout reference does not establish final bleed, trim, seams, or safe areas.

CUSTOM POP UP CANOPY

Canopy footprint guide

Nominal size	Catalog footprint	Approx. width × depth
10 x 10 ft	3 × 3 m	118.1 × 118.1 in
10 x 15 ft	4.5 × 3 m	177.2 × 118.1 in
10 x 20 ft	6 × 3 m	236.2 × 118.1 in

The catalog dimensions describe the aluminum frame family. Nominal feet are rounded size names. Confirm the exact selected frame footprint, clearances, and anchoring space for your venue.

Dimensions are not a production pattern

Fabric stretch, seams, sleeves, hidden hardware areas, and manufacturing allowances must come from the exact supplier template.
