CUSTOM RECTANGULAR FLAG

Ready for event day.

A practical overview. Use the instructions supplied with your exact product for locks, fittings, mounting, and any model specific procedure.

01 Measure the display

Match the selected fabric dimensions to the intended pole or hanging position.

02 Check the attachment style

Pole sleeves, buttonholes, and display finishing are different constructions. Use the finish made for your hardware.

03 Inspect the hardware

Confirm pole diameter, attachment positions, and the support's condition before installing the flag.

04 Fit without forcing

Feed a compatible pole through its sleeve or use the intended attachment points. Keep fasteners from tearing the fabric.

05 Allow room to move

Keep the flag clear of nearby signs, lighting, and visitor routes. Take it down in unsafe conditions.

06 Dry and protect

Remove the fabric from its support when appropriate and store it dry, away from sharp hardware.

Size reference

The following page separates nominal size names from the catalog's measured dimensions.

Artwork that fits

Use the actual metric fabric dimensions in the size table. Keep text clear of the selected sleeve, buttonholes, hems, and any fringe.

Confirm for your exact item

Attachment method, pole compatibility, print direction, finished fabric dimensions, and edge allowances.

Use the matched supplier template before preparing production files. A visual placement preview or layout reference does not establish final bleed, trim, seams, or safe areas.

Dimensions are not a production pattern

Fabric stretch, seams, sleeves, hidden hardware areas, and manufacturing allowances must come from the exact supplier template.
