

STICKERS

Custom Sticker Sheets

Several individually peelable designs on one printed backing sheet, with selectable sheet sizes, layouts, quantities, and finishes.

WHAT YOU RECEIVE

- Selected quantity of printed sheets
- Individual kiss cut sticker designs
- Layout proof with cut lines and positions

Selected options define your item. Scene props and other display products are separate.

Choose with confidence.

Choose the sheet dimensions and the number of designs. Leave usable spacing between cut lines and enough room for people to lift each sticker.

SHEET SIZE

4 x 6 in / 5.5 x 8.5 in / 8.5 x 11 in

CUSTOM STICKER SHEETS

Ready for event day.

A practical overview. Use the instructions supplied with your exact product for locks, fittings, mounting, and any model specific procedure.

01 Check the sheet layout

Review sheet dimensions, each sticker outline, spacing, and the quantity of sheets ordered.

02 Keep the backing intact

Peel each kiss cut sticker from the shared backing. Avoid cutting through neighboring stickers when handling a sheet.

03 Test your application

Check adhesion on a sample of the intended surface before applying a large batch.

04 Clean and align

Prepare a clean, dry surface and position the individual sticker before applying pressure.

05 Apply without stretching

Press the sticker down evenly. Do not stretch thin details to change the approved shape.

06 Store sheets flat

Keep remaining sheets on their liners, flat and dry, with the printed surfaces protected.

CUSTOM STICKER SHEETS

Get the details right.

Sheet sizes	4 x 6 in, 5.5 x 8.5 in, and 8.5 x 11 in
Minimum quantity	25 sheets
Cut	Kiss cut stickers on a printed backing sheet
Artwork	Vector PDF, AI, EPS, or SVG preferred
Proofing	Every cut line and sheet position approved before production

Artwork that fits

Keep separate outlines for every sticker on the sheet. The supplier proof establishes spacing, kiss cut lines, and outer sheet trim.

Confirm for your exact item

Sticker spacing, cut tolerance, sheet trim, finish, and the exact number of stickers in each approved layout.

Use the matched supplier template before preparing production files. A visual placement preview or layout reference does not establish final bleed, trim, seams, or safe areas.
