

TABLE COVERS

Custom Table Cover

Turn an existing event table into a branded surface with a fitted closed back, fitted open back, or stretch cover in your selected size.

**WHAT YOU RECEIVE**

- One custom printed table cover
- Selected size and construction
- Protective bag

Selected options define your item. Scene props and other display products are separate.

Choose with confidence.

Match your table's width, depth, and height. Open back covers provide rear access; closed back covers present a finished rear; stretch covers pull toward the feet.

SIZE

4 ft / 6 ft / 8 ft

CUSTOM TABLE COVER

Ready for event day.

A practical overview. Use the instructions supplied with your exact product for locks, fittings, mounting, and any model specific procedure.

01 Measure the table

Check tabletop width, depth, and height. For a stretch cover, also check the position and shape of the table feet.

02 Choose the right construction

Open back, closed back, and stretch covers have different access and coverage. Use the cover made for your selected format.

03 Position the top

Place the main printed face toward visitors. Align the tabletop and end panels without twisting the fabric.

04 Fit the lower edges

Drape a fitted cover evenly. On a matching stretch cover, seat the intended foot pockets gradually rather than pulling from one point.

05 Keep access clear

Allow safe access behind an open back cover. A fabric cover is not a structural support or a protective surface for hot equipment.

06 Store the cover dry

Follow the fabric care instructions supplied with the item. Keep it dry and separate from sharp hardware in its protective bag.

CUSTOM TABLE COVER

Get the details right.

Sizes	4 ft, 6 ft, and 8 ft
Material	Oxford or stretch spandex
Printing	Full color CMYK
Care	Cold wash, air dry recommended

Artwork that fits

Prepare the front, tabletop, ends, and any printed rear as separate surfaces. Stretch and fitted patterns are not interchangeable.

Confirm for your exact item

The table's actual dimensions, foot locations, selected back opening, fabric stretch, seam allowances, and supplier pattern.

Use the matched supplier template before preparing production files. A visual placement preview or layout reference does not establish final bleed, trim, seams, or safe areas.
