## CUSTOM TEARDROP FLAG

# Ready for event day.

A practical overview. Use the instructions supplied with your exact product for locks, fittings, mounting, and any model specific procedure.

**01 Use the teardrop kit**

Match the fabric to the exact teardrop pole set and size. A feather pole is not automatically a substitute.

**02 Inspect the pole**

Check each section and connect it as shown in the supplied pole instructions. Stop if the flexible tip or a joint is damaged.

**03 Feed the curved sleeve**

Slide the pole through the sleeve without snagging the fabric. Seat the tip in the reinforced end pocket.

**04 Form the outline**

Attach the lower tension point according to the pole instructions. Do not pull beyond the intended tension to change the shape.

**05 Mount on the correct base**

Use a base compatible with the pole and location. Keep the flag and support clear of pedestrians and overhead obstructions.

**06 Dry before packing**

Remove the flag in unsafe conditions. Dry the fabric, separate the pole sections, and protect the flexible tip during storage.

## Size reference

The following page separates nominal size names from the catalog's measured dimensions.

## Artwork that fits

The rounded upper area narrows toward the bottom. Keep critical content inside the confirmed safe area of the actual teardrop pattern.

### Confirm for your exact item

Exact teardrop silhouette, print sides, pole system, lower attachment, assembled height, and final sewing template.

Use the matched supplier template before preparing production files. A visual placement preview or layout reference does not establish final bleed, trim, seams, or safe areas.
