

BANNERS

Custom Vinyl Banner

A full color hanging banner with reinforced hems and grommets, offered in two vinyl weights and several landscape formats.

**WHAT YOU RECEIVE**

- One printed vinyl banner in the selected size
- Selected vinyl weight
- Reinforced hems and grommets

Selected options define your item. Scene props and other display products are separate.

Choose with confidence.

Match width and height to the mounting space, then choose the material. The selector lists height before width. Supporting frames and installation hardware are separate.

POPULAR SIZE

3 x 6 ft / 4 x 8 ft / 5 x 10 ft / 10 x 20 ft

CUSTOM VINYL BANNER

Ready for event day.

A practical overview. Use the instructions supplied with your exact product for locks, fittings, mounting, and any model specific procedure.

01 Confirm the orientation

Check width and height against the mounting space. The current size selector uses height first.

02 Inspect the finish

Check hems, eyelets, pole pockets, or other selected finishing before installation.

03 Choose proper supports

Match the fasteners and supporting structure to the banner and location. Do not assume an existing fence or rail can carry the load.

04 Spread the load

Use the intended reinforced attachment points. Avoid concentrating all tension on one eyelet or stretching the printed face.

05 Monitor outdoor conditions

A solid banner catches wind. Remove it before unsafe conditions and follow the mounting requirements for the location.

06 Clean and roll

Use the care guidance for the supplied material. Dry the banner and roll it for storage, keeping sharp hardware away from the print.

CUSTOM VINYL BANNER

Get the details right.

Material	11.2 or 15 oz/yd ² vinyl
Size orientation	Selector lists height x width; custom dimensions available by request
Finish	Hems and grommets
Packing	Bag, box, or protective roll

Artwork that fits

Use the selected height and width. Keep text out of hems, eyelets, and pole pockets using the final supplier finishing template.

Confirm for your exact item

Mounting structure, fasteners, finish type, eyelet spacing, pole pocket size, and final bleed.

Use the matched supplier template before preparing production files. A visual placement preview or layout reference does not establish final bleed, trim, seams, or safe areas.
