

TRADE SHOW

Portable LED Light Box Display

A freestanding aluminum light box with internal LEDs and a tensioned SEG fabric graphic for indoor trade shows and brand activations.

**WHAT YOU RECEIVE**

- Selected aluminum light box frame
- Printed SEG fabric graphic
- Integrated LED illumination and stabilizing feet

Selected options define your item. Scene props and other display products are separate.

Choose with confidence.

Choose a 3 x 7 ft tower for a narrow vertical focal point or an 8 x 8 ft light wall for a larger background. Plan power access and floor space for the feet.

DISPLAY SIZE

3 x 7 ft tower / 8 x 8 ft light wall

PORTABLE LED LIGHT BOX DISPLAY

Ready for event day.

A practical overview. Use the instructions supplied with your exact product for locks, fittings, mounting, and any model specific procedure.

01 Confirm the exact model

Match the selected display dimensions to its frame, feet, graphic, power supply, and model instructions.

02 Assemble with power disconnected

Lay out and join the intended frame sections and supports before connecting electrical power.

03 Fit the graphic correctly

Use the matched graphic and attachment method. Do not crease the illuminated print or force an incompatible edge into the frame.

04 Check the electrical information

Use only the supplied approved power equipment and its stated voltage. Do not substitute adapters or alter the wiring.

05 Keep cables protected

Route cables out of walkways and keep electrical components dry. Use only in an environment approved for the exact model.

06 Disconnect before packing

Unplug power before removing graphics or separating the frame. Protect connectors and store the components dry.

PORTABLE LED LIGHT BOX DISPLAY

Get the details right.

Frame	Portable aluminum light box
Graphic	Tensioned SEG fabric
Lighting	Integrated LED illumination
Use	Indoor trade shows and brand activations

Artwork that fits

Backlighting changes perceived color and density. Match the graphic to the exact frame and edge system, and check the illuminated production proof or sample when required.

Confirm for your exact item

Frame dimensions, graphic attachment, voltage, plug and power supply, electrical documentation, and intended operating environment.

Use the matched supplier template before preparing production files. A visual placement preview or layout reference does not establish final bleed, trim, seams, or safe areas.
