

**TRADE SHOW**

# Straight Tension Fabric Display

A straight aluminum tube backdrop with a printed polyester graphic for indoor booths, presentations, and recruiting events.

**WHAT YOU RECEIVE**

- Straight aluminum tube frame
- Printed fabric graphic in the selected size
- Carry bag

Selected options define your item. Scene props and other display products are separate.

## Choose with confidence.

Use the straight profile when you want a flat visual backdrop. Double sided printing adds a readable reverse; display lights are a separate upgrade.

**SIZE**

8 x 8 ft / 8 x 10 ft

**STRAIGHT TENSION FABRIC DISPLAY**

# Ready for event day.

A practical overview. Use the instructions supplied with your exact product for locks, fittings, mounting, and any model specific procedure.

**01 Mark the footprint**

Check the nominal width and height plus the depth of the feet. Keep the display within your indoor booth allocation.

**02 Lay out matching tubes**

Identify the frame sections and feet from the supplied assembly diagram. Do not mix tubes from different sizes or frame models.

**03 Connect and support**

Join the correct sections and make sure the connections engage. Fit the matching supports before standing the frame upright.

**04 Fit the graphic**

Slide the matching pillowcase graphic over the frame without pulling on one corner. Align seams and close the supplied fastening gently.

**05 Check both directions**

For a double sided display, check each face and its orientation. Route optional lighting cables away from walkways.

**06 Protect the print**

Remove the graphic before separating the tubes. Keep metal ends away from the fabric and pack only when clean and dry.

## STRAIGHT TENSION FABRIC DISPLAY

# Get the details right.

|                                  |                                                                             |
|----------------------------------|-----------------------------------------------------------------------------|
| <b>Display sizes</b>             | 8 ft W x 8 ft H or 10 ft W x 8 ft H; selector labels list height first      |
| <b>Graphic</b>                   | 7.4 oz/yd <sup>2</sup> knitted polyester (250 gsm)                          |
| <b>Frame</b>                     | Aluminum tube                                                               |
| <b>Catalog packing reference</b> | 31.5 x 10.2 x 11.4 in (80 x 26 x 29 cm); confirm final packed configuration |

## Artwork that fits

The existing 8 x 10 ft selector lists height first: nominally 10 ft wide by 8 ft high. Keep front and reverse artwork separate when both sides are printed.

### Confirm for your exact item

Exact tube layout, assembled footprint, final tension allowance, zipper position, and graphic replacement compatibility.

Use the matched supplier template before preparing production files. A visual placement preview or layout reference does not establish final bleed, trim, seams, or safe areas.
